

Local Business Register

We have recently created a 'Register' of local businesses interested in the opportunities that involvement in the Griffin Wind Farm construction project might present. A number of local businesses have now registered their details with us in advance of main construction beginning this summer.

It's not too late to register.

If you run a local business and wish to register your interest, please contact me (my details are below) with your company contact details and a brief outline of the services you offer.

Businesses need not only be those directly involved in construction. We would like to include as many local service providers as possible including accommodation providers, caterers, suppliers, cleaners etc.

Once we appoint the Principal Contractor for the project (tendering process ongoing), we will pass the Business Register to them in the hope that they can utilise as many local businesses as possible.

Registering your business will put you in a good position but it should be noted that inclusion in the register does not guarantee you future work.

If you have any questions, please let me know.
