

Group Procurement Policy

Policy statement

SSE's Procurement policy is to maximise value throughout project lifecycles and competitively procure goods, works and services as appropriate whilst acting ethically, sustainably and within the law in any jurisdiction in which it operates.

Policy purpose

The purpose of this policy is to establish procedures for the businesses' procurement of all goods, works and services and to ensure that all goods, works and services procured are value led, obtained competitively at the required specifications and quality and procured in compliance with SSE's legal framework.

This policy is owned by the Chief Procurement Officer and is one of a suite of group-level policies that promote a healthy business culture, guide decisions and actions as expected by the company's stakeholders, and make SSE a responsible company that people want to invest in, buy from, work for and partner with.
